

SCANPACK 2015

HM Systems and Fischer labelling
present "**Innovative Marking**" at Scanpack 2015

HM Systems exhibits at Scanpack 2015 in Gothenburg from 20-23 October 2015. The company will demonstrate "Innovative Marking Solutions" within labelling, print & apply, laser marking, ink-jet, print and software solutions.

HM and Fischer will exhibit on booth no A04:48 where a number new and innovative products and solutions will be on display:

- **Labelling dispensers** ranging from basic label heads to advanced high-speed labellers driven by servo motors.
- **Combined dispenser and printer.** The newly released HM 600P label printer/dispenser will be on display
- **HM 3000 Servo labelling dispenser** with multilabel function will be on display
- **Print & Apply systems** based on well-known printers such as Intermec, Datamax and Zebra
- **Fischer labelling machine:** HM will introduce Fischer F4000 with servomotor and touch screen.
- **Fischer labelling machine** HM will introduce Fischer blow box solution based on Intermec PX4i printer.
- **Ink-jet solutions** from EBS: **EBS 6500**, a new compact high-performance ink-jet printer will be introduced
- **HM Linerfree Systems®** without backing paper designed for box labelling.
- **Print solutions** such as Thermotransfer and TTO printers will be on display
